WORK EXPERIENCE

Frontend Web Developer

The Palms Circle

Feb 2021 - March 2023

- Designed, developed, and maintained the company website, ensuring optimal performance, faster load times, and an exceptional user experience.
- Collaborated with cross-functional teams to gather project requirements, set objectives, and deliver high-quality web solutions on time and within budget.
- Implemented responsive web design techniques and optimized the site for various devices and screen sizes, enhancing user accessibility.
- Conducted regular code reviews and performance evaluations to identify areas for improvement and implemented necessary updates.
- Utilized React, Angular, JavaScript, CSS, Bootstrap, HTML, SQL Server, SSMS, .NET Framework, Git, GitHub, Gitflow, AWS, and Shell scripting to deliver outstanding web development services.

Sales, Buyer, and Administrator

Tinty's Hardware

February 2015 - August 2016

- Spearheaded the development and implementation of efficient procurement, transportation, storage, and sales strategies for electrical and hardware products.
- Leveraged sales expertise to maintain strong customer relationships, optimize inventory levels, and meet customer demand effectively.
- Streamlined inventory management, reducing waste and increasing profitability.
- Facilitated communication and collaboration among the sales, purchasing, and administrative teams to ensure smooth operations.
